Pilot Fiber Completes Acquisition of Extenet Enterprise Fiber Business

Pilot Now Owns and Operates the Expanded Network, Adding New Jersey Fiber Footprint and Deeper Financial Services and Carrier Reach

August 17, 2026 -- New York, NY -- [Pilot Fiber](#), an enterprise connectivity provider in the New York metro area, announced today it has completed its acquisition of the enterprise fiber business of [Extenet Systems, LLC](#), effective August 15, 2026. The acquired network, including the former Hudson Fiber Network and Axiom Fiber Network assets, now operates under Pilot's ownership.

The completed transaction extends Pilot's owned fiber network into New Jersey and adds more than 20 data centers to its footprint, including direct access to NASDAQ and NYSE. Approximately 200 additional enterprise, carrier, and institutional customers across financial services, healthcare, media, and higher education will also transition onto Pilot's network. Customers acquired through the transaction will retain their existing service without disruption.

"This is an exciting moment for us as we welcome Extenet's customer base to Pilot. The combined network allows us to deliver more value to both new and existing customers. With the acquisition complete, our focus turns to execution. We will be investing in this infrastructure and our newly acquired footprint in New Jersey while continuing to provide customers with a world-class experience."

Joseph Fasone

Chief Executive Officer

Pilot Fiber

Financial terms of the transaction were not disclosed. Bank Street Group LLC served as exclusive financial advisor to Extenet in connection with this transaction.
