

Momentum Telecom To Acquire DCT Telecom Group

Acquisition accelerates Momentum's growth strategy and enhances customer experience

ATLANTA – April 19, 2019 – <u>Momentum Telecom</u>, an industry-leading cloud based communications provider, announced today that they have entered into a definitive agreement to acquire DCT Telecom Group, a provider of Cloud Voice and Network Solutions based in Cleveland, Ohio.

The acquisition of DCT further extends Momentum's growing customer base. Other highlights include:

- Add scale and geography to Momentum's growing cloud voice customer base, including the growing roster of strategic enterprise clients, with significant upsell opportunities
- Complementary managed broadband, internet and cloud voice capabilities to reinforce Momentum's leadership in cloud communications
- A track record of serving clients with highly responsive support aligning with Momentum's white-glove customer experience.

"DCT's strong relationships in key markets and commitment to their customers make them a natural fit for Momentum Telecom." said Todd Zittrouer, Momentum Telecom CEO. "With DCT on board we will continue to expand geographically and add more enterprise customer knowledge and experience."

"We are proud to join forces with Momentum Telecom as they align closely with our core values. DCT customers will benefit greatly from Momentum's market-leading position and shared view on delivering excellent customer value." said DCT founder, Anthony Romano. "We look forward to continuing to deliver our high quality service with the backing and support of a leading cloud services provider."

The terms of the transaction were not disclosed. The transaction is subject to typical conditions, including regulatory approvals.

Bank Street Group LLC served as exclusive financial advisor to DCT in connection with the transaction.
