

Sierra Wireless Completes Acquisition of Accel Networks

Vancouver, Canada - June 19, 2015 – Sierra Wireless (NASDAQ: SWIR) (TSX: SW) today announced it has completed the acquisition of Accel Networks, a Florida-based provider of 4G LTE managed connectivity service for distributed enterprises. The company has purchased substantially all of the assets of Accel Networks. Details of the acquisition were first announced on May 7, 2015.

Accel Networks provides primary and back-up connectivity services in the U.S. to more than 300 enterprise customers in sectors such as retail, finance, security, energy, and hospitality. Accel Networks is a long term partner of Sierra Wireless and will add scale and capabilities to the company's services business and accelerate the company's device-to-cloud offering. With 4G LTE providing high connectivity speeds and legacy carriers transitioning away from copper-based networks, many enterprises are adopting wireless connectivity.

The Bank Street Group LLC served as exclusive financial advisor to Accel Networks in connection with this transaction.

About Accel Networks

Accel Networks is a leader in managed cellular broadband technology and connectivity services in North America. Accel's deep experience in providing cellular broadband to thousands of locations across the country resulted in the development of iMaestro™, Accel's smart antenna and hosted RF optimization and management system. Through iMaestro™, Accel is unique in delivering consistent and robust cellular broadband experience across customer sites, enabling business to realize the promise of LTE as a

converged voice and data solution that far surpasses the performance and cost effectiveness of wireline service.
